

Axolotl
(*Ambystoma mexicanum*)

Friendly Southern axolotl
Crinkly skin, a hint of mottle
Though ne're a gig as a super model
Pays his dues, you needn't coddle
Wants are few, some quite oddal
One, avoid the display bottle
Quickly darts, he doesn't dawdle
Sorta swims a semi waddle
Eating bugs, he does alottal
like a salamander oughtal
